## Safety Instructions

- **Read and follow these instructions carefully before installing, using, servicing or otherwise handling the Orbital Shower system.**
- The Orbital Shower system can be used by children only if they have been given instructions concerning use of the appliance in a safe way.
- Children should be supervised to make sure they do not play with the shower system.
- Cleaning and user maintenance shall not be conducted by children.
- Do not operate the shower system if water leaks from the appliance.
- Do not operate the shower system if it is frozen or suspected of being frozen.
- Unauthorized modification of internal components and wiring is prohibited.
- Do not operate the shower system if it is damaged. Contact Orbital Systems using the details in the Service Section in the manuals.
- Do not use attachments or parts not recommended by Orbital Systems.
- Do not use the shower to clean extreme soiling or pour corrosive chemicals or cleaners down the shower drain. Any other use of the system than normal showering could seriously deteriorate the quality of the filtration system or damage the shower system.
- Do not drink the shower water. Quality of the water is not guaranteed to meet drinking water quality.
- **These instructions are provided to advise the best practice for the installation.**
- Ensure the installation environment meets all the specified installation requirements. For more details see Chapter Installation Requirements in the Fixture Installation Manual for your chosen shower model.
- All electrical installations must conform to industry rules and be performed by a licensed electrician. This is an earthed appliance, the connection to the earth circuit is mandatory.
- All plumbing installations must conform to industry rules.
- The appliance shall be supplied through a class A GFCI (ground fault circuit interrupter).
- The appliance shall be supplied by a switch that provide a full disconnection under overvoltage category III incorporated in the fixed wiring plant.
- Only applicable to models Panel and Hatch: The appliance is designed for a fixed connection to the water mains. Do not use a detachable water pipe or hose.

### DANGER

Indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

### WARNING

Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

### CAUTION

Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury or property damage.

### NOTICE

Indicates recommended practices.
